

## Rosalind Revenge Media Release

After being promoted, Inspector Rosalind Mason arrives at what seems to be a typical murder scene only to discover her lover is the victim. *Rosalind Revenge* underlines the struggle the LGBT community continues to overcome by challenging the stagnant archetypes of crime films. It also challenges traditional marketing techniques by engaging the audience through every step of the filmmaking process. Truly a one-of-a-kind film experience!

Over the past couple of months the *Rosalind Revenge* team has been competing hard within the CineCoup Film Accelerator. Starting with a two minute trailer and working our way up the ranks, we are thrilled to be celebrating our spot in the Top 40.
