

COMPANY PROFILE

Pocket Change Films (PCF) was established in 2008. PCF produced their first feature film AT HOME BY MYSELF...WITH YOU by leveraging the power of social media to spread the word about their film and creating a fundraising campaign. Connecting to followers on Facebook and using PayPal, PCF was just ahead of the crowdfunding phenomenon. AT HOME went on to festival success and awards. Telefilm Canada selected AT HOME as one of the Cannes 10, bringing

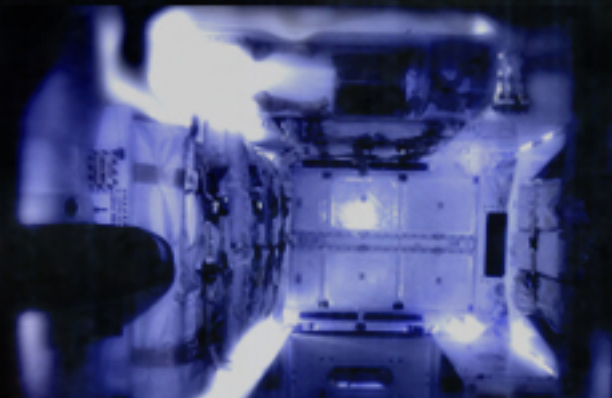

the film to the Marche du Film in 2010. The film is currently available on Netflix, iTunes and MPIX Canada.

PCF's experience in social media marketing, film awareness, and production perfectly positions them to maximize and exceed expectations with the CineCoup Film Accelerator by continuing to make a splash in Canadian Cinema.

RED HORIZON

It's a slow burn

SYNOPSIS

It is the first manned mission to Mars and something goes terribly wrong. One of the small crew must quickly choose self-sacrifice so that the others may live. Emotionally shocked, half of the surviving crew insist on a full mission abort, the others vie for completing their mission. In this Hitchcockian suspense thriller, the psychological balance of the surviving astronauts begins to unravel and cabin fever sets in. Drastic measures must be taken in order to complete this legendary mission to the Red Planet.
