Log Line

It's not unusual for alcoholic cop Lou Garou to black out and wake up in unfamiliar surroundings, but lately things have taken a strange turn; crime scenes seem oddly familiar, Lou's senses are heightened and when the full moon is out, he's a rage-fueled werewolf.

Synopsis

Small town cop Lou Garou hasn't taken his job seriously in years. He drinks too much and when bad things happen he tends to look the other way.

One night, acting out of character, Lou follows up on a disturbance call in a remote area, but shortly after arriving on the scene he blacks out. When he wakes up he can't remember anything, his senses are heightened, he has odd markings on his body and his hair is growing at a rapid rate. That night, Lou's transformation into a rage-fueled werewolf takes shape.

During the day, Lou struggles to remain in control, both of his drinking, his newfound powers and the dangerous situations all around him. In an attempt to uncover the truth, he enlists the help of Willie, the town's local conspiracy theorist, who seems to know a lot about the werewolf's curse. The two of them work together to try and solve a grizzly new string of murders in town, and the mystery of who did this to Lou...and for what dark reasons.

The question is, will Lou be able to make things right before his inner monster takes control again?
