

"Twisted. Eerie. BRILLIANT!!!! Sent chills down my spine." Tommy G.

# DOLLFACE

"Absolutely amazing" Jessica F.

## THE FUTURE OF HORROR IS HERE:

In classic Hitchcockian fashion with a modern sense of style, DollFace is set to change the way we view horror movies for years to come. No longer will you see "gorror" movies where special effects replace the character driven story. Sometimes the best ways are the old ways. DollFace relies heavily on practical effects over CG; truly adding a sense of realism to the film.

## UNIQUE AND INNOVATIVE:

As a story focused movie, the importance of identifiable characters is essential. The plot develops in a realistic and dramatic format that will leave audiences speechless. It has been years since a movie brought chills to the viewer. This is no standard jump scare kind of film, nor is it filled with bloody gruesome gore; instead DollFace will create an air of terror that creeps slowly up your spine like a spider seeking the darkest corners of your mind. In a crowded city Sarah becomes a prisoner in her own body; surrounded by people yet helpless to stop the ever increasing terror. Subjected to the insane whims of a madman, with no way out, how will she thwart his twisted desires?
