DATA ANALYZED

The routine environmental pipeline assessment of the remote forested area known by local First Nations as Black Land, becomes a horror filled assessment in survival.

The team must survive the creature's relentless pursuit through the Black Land.

Black Land will have you rethinking that trip into the woods...

Department of Agriculture, Wildlife and Geology is not responsible for any and all health risks or factors that are somehow imposed in areas. By signing, the person in question waves all rights in terms of litigation for any harm that may come to you during
